

WARRANTY & CARE

2 Year Guarantee

Please take time to read about the protection we offer you

All our products come with a guarantee designed to protect you as our valued customer. Flow Imports Ltd., the makers of ZEMPIRE® Camping Equipment, will repair or replace this product, at their discretion, should it fail due to faulty materials or manufacture for a period of 2 years from the date of sale.

The Guarantee is subject to the following conditions:

1. The Guarantee only applies to an original purchaser who purchased this product from an approved retail outlet.
2. The Guarantee does not apply if the product has been used for anything other than reasonable personal use. Commercial use (e.g. rental) or continuous use are expressly excluded.
3. Damage due to normal wear and tear, accident, acts of God, negligence (other than by Flow Imports Ltd.), failure by the purchaser to ensure instructions for setting up and care are observed, deterioration due to abnormal exposure to ultraviolet light, insect or mildew attack, or any other cause reasonably beyond the control of Flow Imports Ltd. are not covered.
4. If redress is sought under the terms of this Guarantee, then the product must be returned by the purchaser to the outlet from where it was purchased within the Guarantee period, in a clean, dry state and with proof of purchase.
5. All transport costs and any other indirect costs are excluded from the Guarantee.
6. Flow Imports Ltd. reserves the right to make a reasonable charge for repairs which it determines are not within the scope of the Guarantee.
7. The Guarantee does not limit, modify or exclude any rights under any law if doing so would contravene that law or make any part of this Guarantee invalid. However, Flow Imports Ltd.:
 - a) excludes (to the extent permitted by applicable law) all conditions and warranties that might otherwise be implied; and
 - b) limits its liability for breach of any such condition or Guarantee that it cannot exclude together with its liability under the Guarantee, to repairing or replacing the Goods or paying the cost of having the Goods repaired or replaced (at Flow Imports' option).

This product has been made with meticulous care and attention to detail. Providing it's properly looked after and correctly stored, it will help you enjoy all that nature has to offer for years to come.

Get out more – you owe it to yourself!

Zempire®  **MONSTALITE THERMO SGL**
CAMPING EQUIPMENT INFLATABLE MAT

INSTRUCTIONS

Zempire® 
CAMPING EQUIPMENT

INSTRUCTIONS

TO INFLATE:

1. Unroll the mat on a flat surface.
2. Open the valve cap.
3. Attach the tail of the inflation bag to the valve.
4. Open the inflation bag and trap air inside with a quick upwards motion, followed by rolling the top of the bag to create a seal.
5. Press down on the inflation bag and roll towards the valve to transfer air into your mat. Repeat this step until the mat is fully inflated.
6. Once fully inflated, check the mat for comfort. To increase firmness, pump more air into the mat. To decrease firmness, press on the black seal inside the one-way valve to allow a small amount of air to escape.
7. Once your mat has reached your desired firmness, remove the inflation bag and secure the outer valve cap.

TO DEFLATE:

1. Open the valve cap and gently fold the black-rubber seal inside out (as pictured) to allow air to escape. Be careful not to damage the seal or remove it completely, it should simply fold outward.
2. Roll the mat towards the open valve, this will force any remaining air out the valve.
3. Fold the mat along its length to match the width of the bag and roll the mat toward the valve.
4. Close the outer cap and insert the rolled mat into the inflation/carry bag. Roll the collar of the inflation bag tightly and secure with the quick release buckle.

CARING FOR YOUR MAT:

- If your mat is accidentally punctured, repair with the included adhesive or use a high-quality, flexible, urethane adhesive.
- To avoid mildew, never store your mat in a damp or wet environment. Be sure your mat is completely dry before storing.
- To clean your mat, use mild soap and warm water. Be sure to close the valve when cleaning to avoid getting any water into the mat. Let the mat air dry. Never place your mat in a washing machine or dryer.
- Keep your mat away from any open flames, sparks, embers, hot camp stoves, lanterns or other high heat sources.
- Avoid using your mat on sharp or abrasive surfaces.
- Do not use an electric pump to over-inflate the mat as it may cause irreparable damage.
- Avoid jumping onto or falling quickly onto the mat as this can lead to excessive pressure inside the mat.
